Mr. Martin Wright  
Secretary  
Co-operative Translation Service  
The Iron and Steel Institute  
4 Grosvenor Gardens  
London, S.W. 1, England

Dear Mr. Wright:

We have regrettably no facilities for dissemination of our translations to other than U.S. government agencies. However, translations of scientific and technical nature, which include ferrous metals, are furnished to the John Crerar Library, Chicago, Illinois. Crerar includes these in their listings which are published in their monthly publication Translation Monthly, with which you are probably familiar and which, we trust, will assist the desired coordination.

Sincerely,

SIGNED

  
Executive Officer

WASHINGTON, 25, D.C.,  
U. S. A.

Dear Sir,

I was interested to read recently of your activities in the field of translations, and would be interested to know whether you touch on the subject of iron and steel. If so, would you be able to let us know both which translations you have made, and which you are proposing to make in the near future? I should be glad to reciprocate and it is possible that we could avoid some duplication of effort in this way.

STATINTL

For your information, I enclose a copy of a recent circular letter describing our Translation Service, and one of the lists which we publish every fortnight.

Yours truly,

*Martin Wright*
